A thousand reasons to communicate

PEACE DAY

INTRODUCTION

First of all we think that World Day of Peace is not so familiar to us Evangelical Lutherans than it is to Catholics.

Motivating: Teacher reads the letter for Peace Day from Pope Francis. Discussion about slavery and that bad situation mostly of women and children. Slavery is not so familiar to our students. In Finland we haven’t had any slaves in our history. The older students have read about it in world’s history but it seems to be so far from us. That’s why we decided to turn those posters to concern more inequality, indifference and bullying (SVH.)

We start to work by watching different kind of posters from internet. While watching we discuss what is important in those posters, what is the message of them. After that making a list of those which are important things to know when you are making a poster to be good one. After discussing about good pictures in posters start to discuss about slogans (SY).

LEARNING OBJECTIVES

LINGUISTIC COMPETENCE

LO1: To recognize different types of text; slogans.
LO2: To develop English skills and vocabulary (translation).
One student with special needs works following by his own curriculum.
LO3: To learn how to say shortly something you think is important.
LO4: To invent a slogan that goes along with the picture.

DIGITAL COMPETENCE

LO5: To use a computer for watching the posters
LO6: To find out how many different technics there are to make a poster.

SOCIAL AND CIVIC COMPETENCES

LO7: To appreciate that we may live in peace, no wars or slavery and our problems are rather small comparing with the children and women in developing countries.
L08: To find out why someone wants to make posters of important things to him.

L09: To notice what kind of posters make people to notice the poster and make to look closer the picture and the message of it.

L010: To look for different types to make letters and write slogans.

L011: Co-operative working in little groups to figure slogans and find the one of their own.

L012: To learn how to enlarge a picture from a smaller paper to a large one.

**CULTURAL AWARENESS AND EXPRESSION COMPETENCE**

L013: To find out what different symbols do we use in our posters; the meaning of those and the difference from those we looked from internet.

**CONTENT**

To draw a draft (size of A4) including the place of the drawing/picture, place for the slogan and colours which you are going to use.

After planning the draft show that to your teacher and discuss about your ideas. Make the draft.

When the draft is done, start making a poster using the draft as a model.

The paper in which the poster is going to draw is size A3.

After making the poster, students do the self-assessment.

**ACTIVITIES AND DIFFERENTIATION (ABILITIES AND SPECIAL NEEDS)**

After looking the posters students noticed that a good poster is colorful and the picture in it is clear. They also noticed that it is important that the picture tells immediately what the poster was meant to tell.

After choosing/discovering a slogan, students from 3rd grade make their work in Finnish because they have just started to study English in autumn. Other students wrote their slogans in English, except the one, who has his learning problems. His slogan is in Finnish as planned.

**RESOURCES**

- Teacher’s computer, 2 iPads, 2 Ipads.
METHODOLOGY

To start the work teacher reads the letter from Pope and asks what the students knew about the slavery = teaching discussion.

Make slogans in little groups. After figuring the slogans start to watch them together thinking what a good slogan is and so on. = ideation, co-operative learning and learning by doing.

Planning what kind of picture is coming into the poster and where is the place of slogan and with what kind of letters you will write with. And also plan what colours they are you going to use for the poster. = self-working with co-operative learning.

When the work is done look at it and try to find out in which part you are satisfied, is there something you could do in a different way, are you pleased to layout, colours, text and hole work etc. = self-assessment (teacher has to make sure that the students find something to be pleased with!).

After the posters are finished, discuss with your schoolmates what do you think about the works. What do you find interesting and why and so on = peer review.

STUDENTS ASSESSMENT (SUCCESS CRITERIA)

The work is accepted when:

- You have thought the colors.
- The slogan is ok and it matches the term which was given.
- You have thought the way of writing the slogan and where to put it.
- The layout is fine.
- You have done your own assessment and took part of peer review.

In students’ posters there were many times Earth, some kind of teams, Finnish flags and people standing together hand in hand; telling about national and even international friendship. Someone noticed to put international symbols like victory mark with fingers and a pigeon.
It was nice to notice that in spite of the title of this year’s Peace Day: Slavery, our students’ posters were all positive and supportive. But those we saw from internet told us about poverty, misery and bad situations. You can divide our posters to three categories by the slogans:

One category of those slogans was to make people more equal:

- All different all the same.
- Be fair / We are one.
- Help (in which the bread is shared).

The second was more individual:

- Take care.
- Listen and care.
- Make up!
- Älä kiusaa (Don’t bully).

The last category has more international items like:

- Peace to the World.
- Live in Peace.
- Peace Day / Be Kind.
- Peace and love.
- Rauha maalle (Peace to the land).

One slogan was so large that you could put it in every category:

- Peace Day / Don’t leave anyone alone.

Working with the posters took a long time.

The result was mostly quite good especially from the technical point. Posters were colourful. Pictures in the posters were clear and big enough. Slogans were good even some students thought that it was very hard to figure a good slogan. The drawings and the headlines were matching.

TEACHER EVALUATION

When we started this project I think I led the discussion quite well. Students seem to understand the resources of posters; what makes one poster better than the other.

Talking about slogans. That was a little bit challenging for me. That what we say very shortly in Finnish, have to say much longer translated in English. While translating teacher had to do a lot of extra work to get the student make short and vigorous slogans and the slogans were such that you could understand the meaning of it. Also students needed more help than I was planned to keep the drawings simple enough.

This project took more time than I planned. So the timetable I made was no perfect.
I am satisfied for ability grouping which I made. One 6-grader and one 3-grader made the slogans in Finnish because of studying English for a short time or having own curriculum in studying English. The 4-graters got help for me to translate and 5-6-graders needed only checking for their translations.

I was very pleased for our performance ;)

ACTIVITIES AND DIFFERENTIATION (ABILITIES AND SPECIAL NEEDS)

PREVIOUS ACTIVITIES

We are going to develop three main activities before the common act:

- Video 'String of favors'.
  All class groups went to the library to watch a video. Tutors with their group of students talked about the viewed video, proposing an activity related to the same. The activity consisted of a "secret friend" where each child took a piece of paper with the name of a classmate and had to do a favour or favours throughout the week. Colours strips were given to each child to write / draw some of the favours done. A chain was made with all those favours.

- Posters illustrated with persuasive text in Spanish.
  The previous week to Peace day, each class group drew a poster with a slogan and advertisement for peace day on a cardboard and decorated it together.

- Song "Peace and love" by Gisela.
  This song was practiced in each class group so the children learn it together to sing it in the common Act.
COMMON ACT

It was held the afternoon of 30th January in the primary playground.

- 15-16 hour. The chains were displayed in each class to take them to the playground and join them to the rest.
- 16-17 hours. Six students per class read the Peace speech to the rest and then each slogan was taken to the stage and joined their 'chain of favors' forming the whole school. We ended all together singing the song 'Peace and love'.

RESOURCES

We are going to use several resources such as:

ICT RESOURCES

- Search for information via the internet of various peace manifestos.
